Applicants urge that the requirement is now proper since the surfactant (Genapol^R 3938) in the example is a mixture of both these compounds. Further, the Examiner has not demonstrated that searching the mixture would constitute an undue burden. Thus, for these reasons, reconsideration and withdrawal of this rejection is requested.

This amendment corrects an error to claim 14. The Examiner is thanked for bringing this to Applicants' attention.

It is believed that no fee is due. If, however, a fee is required, the Assistant Commissioner is authorized to charge Deposit Account No. 50-0320.

An early examination on the merits is earnestly solicited.

Respectfully submitted.
